25X1

the question had been raised as to whether [] is the proper channel. 25X1
The possibility was pointed out that [] had requested this 25X1
information in order to convince [] 25X1
[] particularly since there are strong current rumors
that [] is somewhat dissatisfied with [] and his performance. 25X1
After some discussion it was agreed [] would get in touch with Hugh 25X1
Cumming in the Department of State on this matter and determine how it
should be handled and what should be included if it is agreed to forward a
report.

[]

Noted that after the Director had left the luncheon given for General
Shepherd and other members of the Inter-American Defense Board, J. C.
King had given an excellent briefing on the current situation in Cuba and in
particular had brought out that Castro might very well prevail in six months
or less. [] said that for some time we had been trying to
get guidance from the Department of State as to what action if any we should
take in Cuba. However, [] has been dragging his feet. Mr.
Kirkpatrick pointed out that in his opinion Cuba could go up in smoke any
moment and with the number of followers Castro now has there would inevitably
be a blood bath of no small proportion. After some discussion it was agreed
that ONE would prepare a crash estimate on Cuba and the Director would
brief on Cuba at the NSC meeting on 30 October. Note: Col. King to notify
[] of the Director's intention to brief on Cuba at the NSC.
